General Conditions

§1 Field of Application

Solely these conditions are valid. We will accept contradictory conditions or requirements of the orderer / buyer which are variant to these conditions, only if we have definitely approved the validity in writing. These conditions are also valid for business in the future with the orderer / buyer, as far as related legal transactions are concerned, specially such as consulting, information, etc.

§2 Offer and Placing of Order

Our offers are subject to alteration without notice. The prices and technical data given in catalogues, brochures, advertisements and price lists or in documents attached to the offer are subject to alteration. A contract is concluded when a written offer(s) / confirmation of order / invoice has/have been carried out. The prices are valid for 3 months from the date given in the confirmation of order / invoice. Please note the turnover tax provided by law given in all quotations. When long term delivery dates are agreed upon, then our prices valid on the date of delivery will be charged. The offer can be accepted by delivering the object purchased. An order covers the authorization to carry out test-drives on our part.

§3 Orders and Conclusion of Contract per Internet

A contract with Gemballa GmbH covers only orders and deliveries within the Federal Republic of Germany. Orders outside the Federal Republic of Germany are forwarded as an inquiry to the importer in charge, who will send you a corresponding offer for your order. When ordered per internet, you will receive an email once the ordering process is over. The conclusion of the contract is reached by confirmation and the object purchased will be delivered ex works.

§4 Delivery

As far as no terms of delivery are agreed upon, we will deliver the object purchased on the next possible date. Operating interruptions, traffic disturbances, labour strikes, raw material shortage or other inability incurred through no fault relieve us at all events of meeting delivery terms and do not give the buyer the right of indemnity or withdrawal from contract. We are entitled to carry out partial deliveries, unless partial fulfilment of the contract is of no interest to the customer.

§5 Devolution Risk and Purchase

The cost and risk of all consignments and in case of re-consignment will be borne by the buyer. The risk devolves on to the buyer in accordance with § 447 section 1 BGB as soon as we hand over the goods to the forwarding agent respectively to the orderer / buyer. This is also valid for consignments within Leonberg, our area of performance. When we forward goods in our own vehicles, the risk devolves on to the buyer at loading. Should the buyer refuse to accept goods sent to him, then we are not bound to re-send the goods to him. We are then entitled to fix a time limit of 14 days to the buyer to collect the goods from us and to threaten with withdrawal from contract. If the buyer should not collect the goods from us within the fixed time limit, then we are entitled to withdraw from the contract and to demand indemnity on grounds of failure on their part to perform, namely 15% for vehicles and 20% for spare parts and other performances, of the gross invoice amount without having to prove the amount of damage incurred to us. This indemnity does not exist, in case the buyer proves that a damage was not caused at all or that the damage caused does not amount to the lump-sum. We are always also entitled to assert a damage that exceeds the above mentioned lump-sum. The above regulation is valid when it is agreed that the goods should be collected, as far as a delivery time of ... is agreed upon by GEMBALLA.

§6 Reservation of Title / Contractual Lien

a). Delivery of goods are subject to reservation of title of the seller till all contractual obligations are fulfilled by the buyer. As long as the reservation of title exists, each amendment to our disadvantage, sale, pledge, protective conveyance or any other transfer to a third party without our written permission is unlawful. The buyer must handle and keep the delivered goods carefully and maintain them in a perfect condition during the period of reservation of title. Destruction, damage and seizure of the delivered objects as well as each change of address of the buyer or the change of location of the goods must be immediately informed to us. In case of seizure, the executing officer must be informed of the reservation of title. All costs incurred due to asserting of our reservation of title will have to be paid by the buyer.

b). As a result of all demands made to the orderer, we are entitled to a contractual lien, also to other objects which the orderer has handed over to us or which have come into our possession.

§7 Spare Parts

If nothing else is agreed upon when placing an order then the parts which were replaced by us become our possession.

§8 Liability

Claims for damages and expenses of the orderer, no matter on which legal grounds, are excluded, other than they are based on regulations of the product liability law, intentional or gross negligent violation of contractual or legal obligations by us, health and physical damages of the customer subsequent to violation of obligations represented by us, acceptance of a warranty for the existence of an essential status or violation of essential contractual obligations by us. At petty negligent violations of obligations, our liability is limited according to the foreseeable nature of the purchased object, immediate average damages typical to contract, we are not liable towards firms at petty negligent violations of unessential contractual obligations. The risk at test-drive is borne by the orderer / buyer.

§9 Warranty

A. If defective parts are delivered by the seller, we reserve the rights to replace these with new parts or to improve these. This warranty is valid for 6 months from the date of delivery, if no other written agreement is met. The liability depends upon faulty construction or defective design. We undertake liability for faulty material only as far as we could have detected the faults by applying professional attention. The warranty is excluded when:

- the buyer has already carried out improvements on his own authority,
- the delivered parts are used for racing drives. For parts used for racing purposes, which have a relatively short life, our warranty obligation is limited to the respective technical standard in accordance with the trouble-free status of the material of the brand new part at the time of delivery. For new engines which have been tuned to increase the performance compared with the standard engines, we give a 12 month warranty without km-limit from the date of delivery. This warranty covers only new vehicles as well as power transmission parts. For used engines, (not older than 12 months) which have been tuned to increase the performance we give a warranty for the complete engine for a total period of 12 months. For used engines older than 12 months, which have been tuned to increase the performance, we give a warrant for 6 months for the parts changed by us and for the work. This warranty lapses when participated in racing drives. All parts which are the subject of a warranty case must be forwarded to us free of charge.

B. New Vehicles

For vehicles which have been tuned to increase the performance we undertake a warranty for a period of 12 months without km-limit from the date of delivery. The warranty includes the parts - variant to the standard production - which were replaced or processed and beyond that the parts of the chassis and the power transmission. For measures taken to increase performance on used vehicles the Motor Vehicle Repair Conditions - recommended by the Zentralverband des KFZ-Handwerks, Bonn - (will be sent by us on request) are valid, however, our warranty covers only the parts of the chassis and power transmission built or processed by us. The warranty is limited to restoration of the working order of the faulty part.

C. General

Natural wear or damages caused due to faulty or improper handling by the orderer / buyer are not included in our liability obligations. Claims to remove defects, which are covered by the warranty, will be accepted by us only when these are notified to us in writing within 14 days after determination. Warranty work will be carried out exclusively in our workshop or by authorized partners named by us. Nevertheless the parts exchanged must be sent to us for examination. The warranty lapses when

- the assigned maintenance services given in the service booklet are not carried out or not carried out regularly.
- the rules of the service manual are disregarded.
- the vehicle takes part in race driving
- the vehicle is technically altered in a manner that is not permitted by us.

Requirements to change or amend the contract of purchase or to reduce the price is excluded, if we are to fulfil the above warranty.

§10 Payment Terms

The prices valid on the day of ordering is relevant, and are understood as net prices. The value-added tax valid on the date of issuing the invoice will be charged. Packing and freight charges will be additionally added if no other agreement is met. Preferential interest amounting to 3% p.a. beyond the bank rate of the Deutsche Bundesbank plus value-added tax will be charged. If extra expenses such as banking charges are proved, then these can be charged to the orderer. When an advance payment is agreed upon at the time of ordering, then this must be paid before the beginning of work. To detain payments or to set off against counterclaims by the orderer is only permissible if the counterclaims were definitely accepted by us or were legally provided by order of the court.

§11 Place of Performance and Jurisdiction

Place of performance is Leonberg, as far as nothings else is definitely agreed upon. For all litigations resulting from the contractual relationship, if the orderer is a businessman, an action should be entered at the Amtsgericht Leonberg or at the Landgericht Stuttgart. We are also entitled to enter an action at the principal place of business of the orderer. Solely the German law is valid excluding laws referring to international purchase of movables, also when the orderer has his place of business in a foreign country. In case of another place of jurisdiction, Leonberg is valid as the covenant place of jurisdiction.

§12 Other Matters

The inoperativeness of individual regulations is based neither on the validity of the contract nor on the remaining regulations.
